Slim Series

This in-ceiling loudspeaker is the smart solution that matches lifestyle with the demands of discerning listeners.

The Slim 3 in-ceiling loudspeaker systems provide 3 virtually invisible high quality solutions for discerning listeners that do not want settle for the ordinary.

The standard Slim 3* is the base model and is recommended for surround sound rear channels and extra music zones. But for more discerning listeners the Slim3SE^ has extra damping and bass control and is also available without the rear cover† for applications with limited space. Or for true hi-end performance the Slim3SSE‡ is perfect as fronts or surround sound speakers in Home theatre or dedicated hi-fi systems.

All Slim 3 loudspeakers grilles and surrounds are white to blend unobtrusively with most ceilings, or can be easily painted if required. But the Slim3's are more than style, they deliver a choice of cost effective solutions that recreate audio as it was intended for every listener's enjoyment.
